ADDRESSOR

KEY FEATURES:

- 99 different address capability
- 12VDC
- Works with EPic WiFi or 3rd party controllers such as Control 4, Savant, etc...

THE ADDRESSOR ALLOWS YOU TO AUTOMATE EACH AND EVERY EPIX EFFECT YOU HAVE IN YOUR HOME, NO MATTER THE AMOUNT!

ONLY THE ADDRESSOR GIVES YOU THE FLEXIBILITY TO COMPLETELY CONTROL EACH UNIVERSE IN EACH ROOM

THE EPIX ADDRESSOR the key to designing your custom universe. The Addressor is exclusively for the EPIX star system modules and kits.

Designed for homes with star ceiling and effects in multiple rooms. The addressor allows you to control each room / universe independently.

EG: Turn off the fireworks in the kids bedroom while leaving on the stars on at 50% at bedtime, then turn on the stars and meteor shower in the home theater for a late night movie.

Addressors in separate rooms
(epic WiFi shown can be a third party controller)

'MODULES' in diagram below are labeled as generic but represent any of our epic star and effect modules

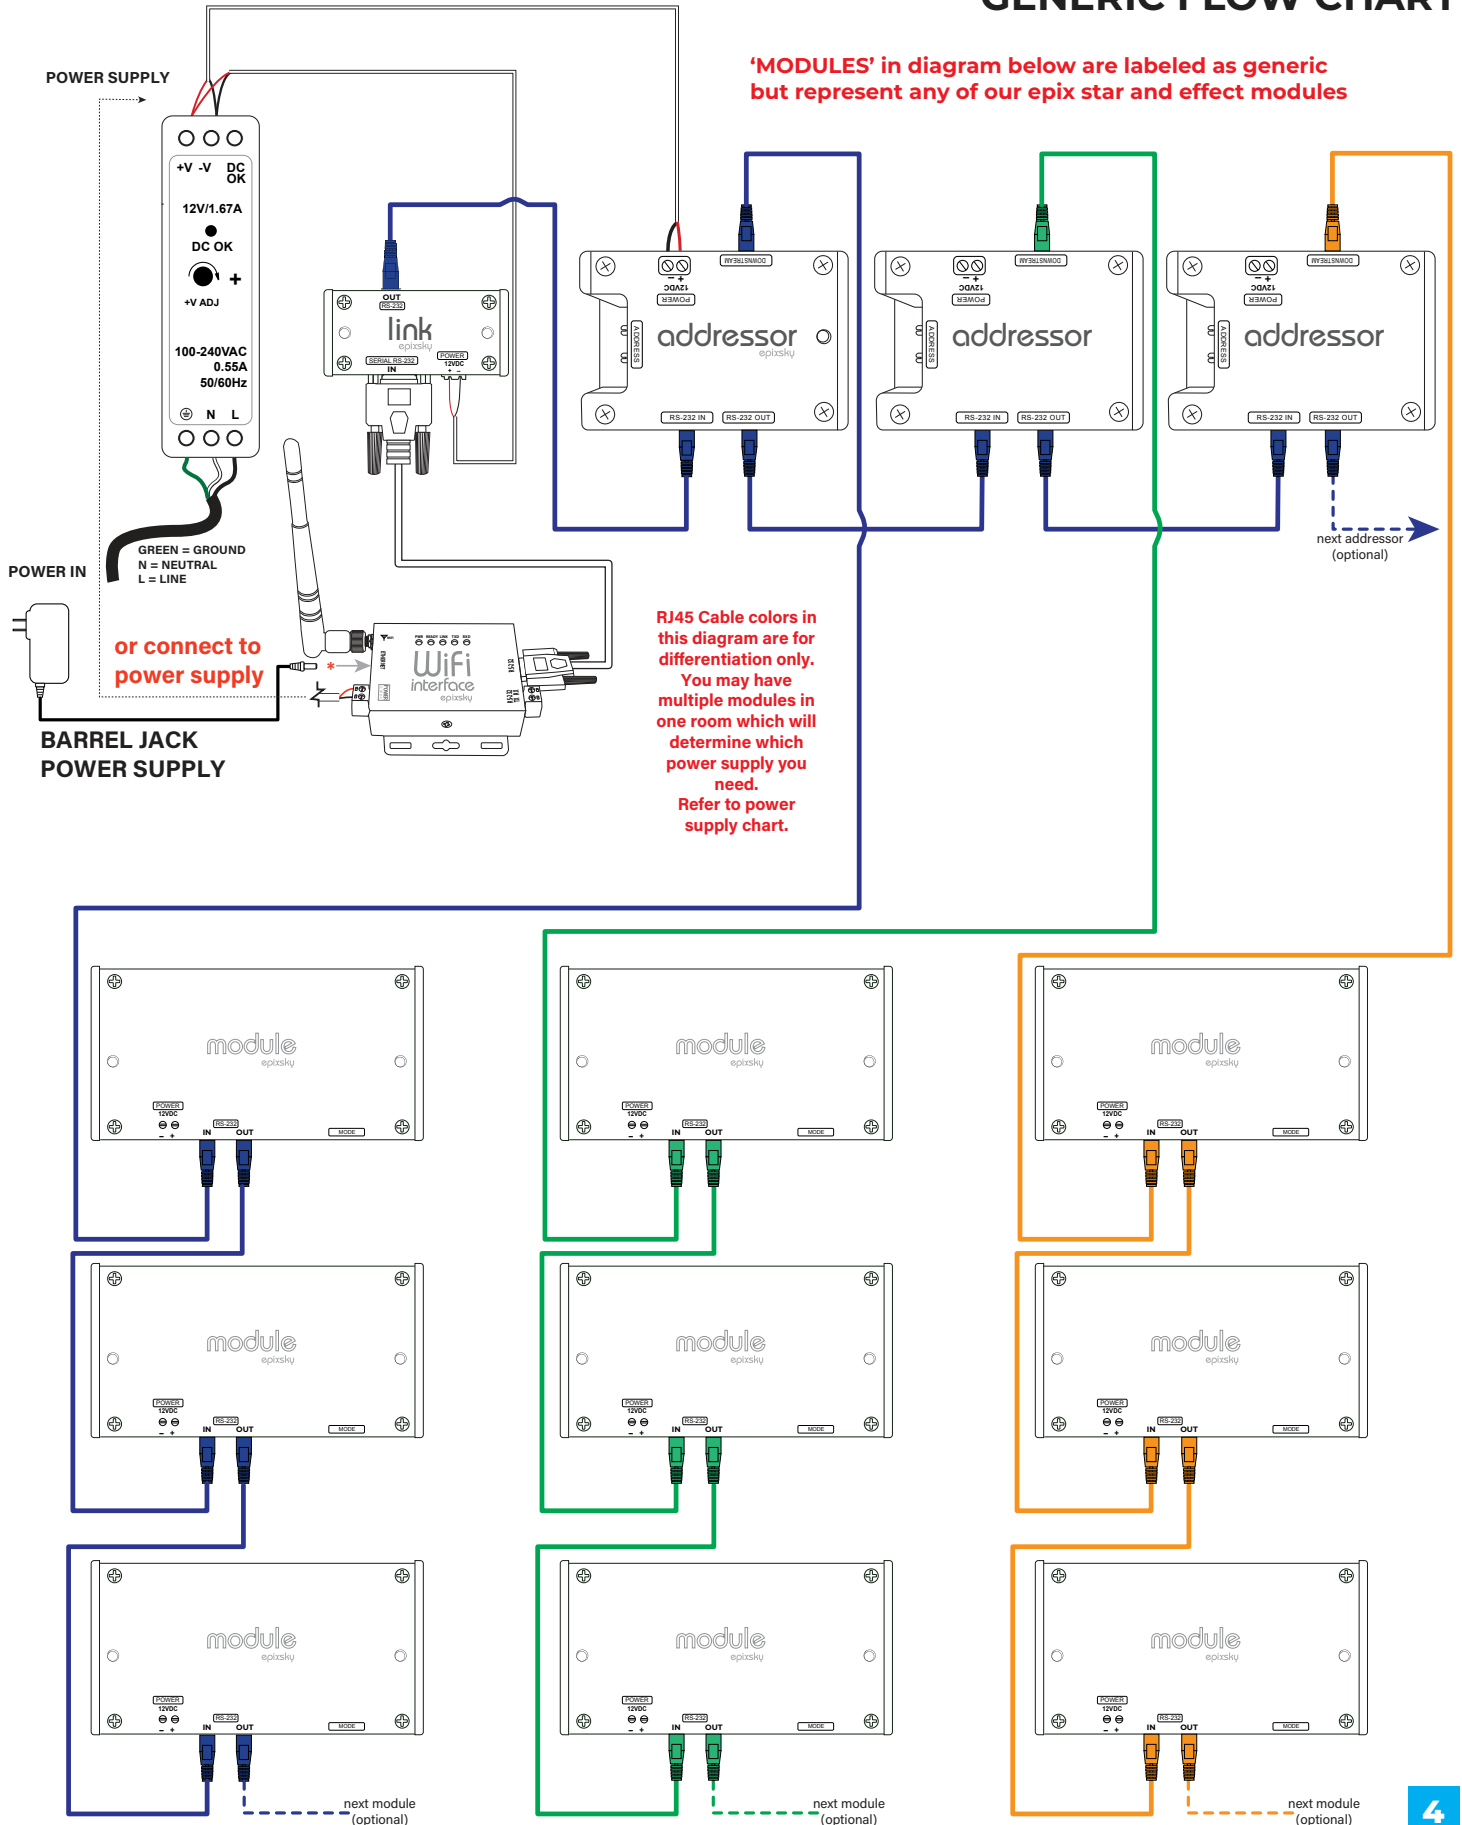

RJ45 Cable colors in this diagram are for differentiation only. You may have multiple modules in one room which will determine which power supply you need. Refer to power supply chart.

POWER SUPPLY CHART	
20W	5-6 modules
40W	12-13 modules
60W	19 modules
100W	32-33 modules
150W	105-106 modules

Every 13th module will need a power boost. Use another lead wire and connect from your power supply to the power input on your module.
